SUMMARY

Computer Science and Engineering student with a strong interest in software development, frontend engineering, and UI/UX design. Experienced in designing interfaces with Figma and building responsive web applications using HTML, CSS, JavaScript, and React. Interested in solving real-world problems through well-designed, user-focused technology products while continuously developing skills in data structures, full-stack development, and modern web technologies.

EDUCATION

B.Tech

B V Raju Institute of Technology (BVRIT)

📅 09/2024 - 2028 | 📍 Hyderabad, Telangana

CGPA

8.83 / 10

Class XII

Vinjee Junior College

📅 06/2022 - 06/2024 | 📍 Hyderabad, Telangana

Marks

981 / 1000

PROJECTS

Citizen Connect — Civic Issue Reporting & Community Platform

React.js • Firebase • Firestore • Tailwind CSS • UI/UX

- Designed and developed a citizen-focused platform for reporting local civic issues and connecting users with relevant community services.
- Implemented an intuitive interface for submitting, tracking, and managing civic complaints through a user-centered workflow.
- Integrated Firebase and Firestore for storing user data, complaints, issue status, and community information.
- Designed responsive UI components with clear navigation, visual hierarchy, and accessible interaction patterns.
- Applied the UX process of Empathize → Define → Ideate → Design → Prototype to create a practical civic technology solution.

Smart Home UI

Figma • UI/UX Design

- Designed a modern smart-home control interface focused on simple navigation and clear visual hierarchy.
- Created screens for controlling and monitoring connected home devices.
- Applied reusable UI components, spacing systems, typography, and interaction patterns.
- Developed the design as a portfolio-ready product concept.

Personal Portfolio Website

React.js • JavaScript • CSS • UI/UX

- Designed and developed a personal portfolio showcasing software development and UI/UX projects.
- Built interactive sections, responsive layouts, project showcases, and animated interactions.
- Focused on creating a distinctive visual identity while maintaining usability and accessibility.
- Continuously improving the website's navigation, alignment, interactions, and overall user experience.

ACHIEVEMENTS

- 1st Place — Promethean Competition, contributing to a solution that addressed a business/company problem.
- Participated in technology and hackathon-oriented projects focused on solving real-world problems.
- Continuously developing skills across software development, UI/UX, and problem solving.

TECHNICAL SKILLS

Programming Languages

C Python Java JavaScript

Frontend

HTML CSS JavaScript React.js

Backend & Database

Node.js Firebase Firestore

UI/UX

Figma Wireframing Prototyping
User Interface Design Design Systems

Tools & Technologies

Git GitHub VS Code Canva Blender

Other

Data Structures & Algorithms
Responsive Web Design API Integration

CERTIFICATIONS

- Figma UI/UX Design Essentials
- Figma UI/UX Design Advanced

DESIGN & PRODUCT SKILLS

- User Research
- Empathy Mapping
- Problem Definition
- Ideation
- Wireframing
- Prototyping
- User Interface Design
- Design Systems
- Responsive Design
- Usability-focused Design

RELEVANT COURSEWORK

- Data Structures & Algorithms
- Object-Oriented Programming
- Database Management Systems
- Operating Systems
- Computer Networks
- Software Engineering
- Web Development

INTERESTS

Software Development • UI/UX Design •
Product Development • Artificial Intelligence •
Web Applications • Problem Solving
